

Felt Polishing Products

Felt products are made from 100% wool felt. They are used with polishing compounds or pastes to provide up to a mirror finish. Available in several Densities and Flap Thicknesses.

(D = Flap Thickness (mm), H = Felt Density)

Chrome Rouge: Brilliantly finishes all metals particularly ferrous metals. Excellent for final coloring of any material.

Jewelers Rouge: Finest Abrasive. A premium composition for the finest finish on non-ferrous metals such as brass, copper, gold, silver and other precious metals.

Stainless: General purpose composition. Good cut & color. Restores the natural luster of ferrous metals such as stainless. For cutting down and coloring stainless and other steels, chromium and nickel plate, plastics. Has a fast cutting action and good coloring.

White Rouge: Will not discolor. Clean & Greaseless. Restores a natural luster to non-ferrous metals such as aluminum. Can also be used on plastics. Removes scratches and produces a brilliant high-gloss finish.

Tripoli: Removes surface imperfections from all base metals and plastics. Used for general cutting and preliminary coloring operations. Excellent on brass plating and aluminum, pewter, etc. Mild cutting action and good coloring.

Emery: Most aggressive, approaching that of a flexible grinding wheel. Coarse buffing, removes scratches, rust, corrosion and burrs from iron, steel and other hard metals.
