

Flap Discs

Fiberglass Backing Plate - wears away as flaps wear.

PREMIUM ZIRC: BEST CHOICE FOR CARBON STEELS. Works well on most other materials, including stainless.

CERAMIC PLUS: BEST CHOICE FOR STAINLESS STEEL. Works well on most other materials - including carbon steel.

Standard-Density discs are very compact - making them RIGID & AGGRESSIVE!

Hi-Density discs provide more of a "cushioned" grinding effect. They can either be aggressive with pressure, or they can blend when used with lighter pressure.

Type 29 (angled face): Built-in angle for increased contact area.

Type 27 (flat face): More forgiving than Type 29 wheels. Best for producing smoother finishes.

Item numbers in **Bold Italics** are popular stock items. All other item numbers available in 3-5 days.

Unmounted Flap Wheels

Premium Egyptian Cotton AO/X

Unmounted flap wheels are an excellent choice for applying a "grain effect" or for general polishing & deburring. No dressing is required before or during their use. They will work on steel, stainless steel, aluminum & most other materials.
