XL Unitized Wheels - will provide a consistent, uniform finish on most materials. They can also be used on Titanium, Nickel, Cobalt/Chrome and other highly alloyed materials without smearing.

CP Unitized Wheels - are harder & last longer than XL wheels of comparable grading. These heavy duty wheels are great for blending & finishing. Easily replace rubber bonded wheels, set-up wheels and flap wheels. They will provide a consistent, uniform finish & are ideal for cutting & polishing applications or for deburring most materials.

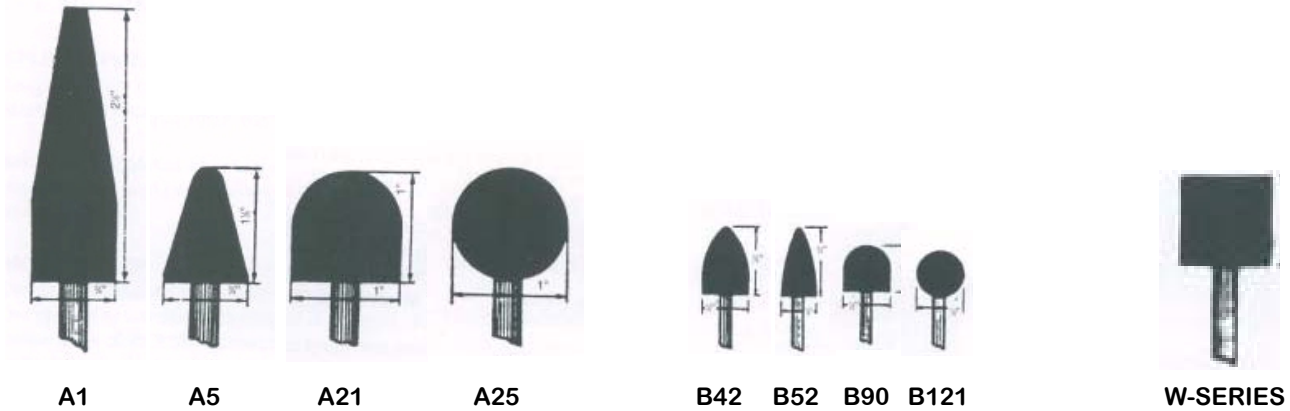

Other sizes, grades and arbor holes available on request.

XL Unitized Mtd. Points

XL Unitized Mtd. Points will provide a consistent, uniform finish. They can also be used on Titanium, Nickel, Cobalt/Chrome and other highly alloyed materials without smearing. Wheels will not undercut the workpiece.
