9 x 11 Wet / Dry Sheets

Norton's BLACK ICE Wet/Dry sheets features an advanced coating technique with a premium performance fast cutting grain on a waterproof, curl-resistant backing. This process also makes the waterproof sheet incredibly flexible so it will not crack when folded and, therefore, eliminates the chance of wild scratches. The Norton Black Ice result is a smooth sanding paper that gives the ultimate finish.

Preferred's Wet/Dry Sheets feature premium Silicon Carbide Grains that are resin on resin bonded onto strong latex-backed paper. These sheets can be used for wet or dry sanding but are most effective when used with water or a lubricant
